No. 1 (January)

Original Articles:

- | | | | |
|---|----|--|-----|
| Pharmacokinetic Studies of Quinidine in Patients with Arrhythmias | 1 | Quantification of Infarction in Cross Sections of Canine Myocardium <i>In Vivo</i> with Positron Emission Transaxial Tomography and ¹¹C-Palmitate | 66 |
| <i>Kenneth A. Conrad, Barry L. Molk, and Charles A. Chidsey</i> | | <i>Edward S. Weiss, Syed A. Ahmed, Michael J. Welch, Joseph R. Williamson, Michel M. Ter-Pogossian, and Burton E. Sobel</i> | |
| Clinical Significance of Prolonged Sinoatrial Conduction Time | 8 | Localization of Radiolabeled Cardiac Myosin-Specific Antibody in Myocardial Infarcts: Comparison with Technetium-99m Stannous Pyrophosphate | 74 |
| <i>Ramesh C. Dhingra, Fernando Amat-y-Leon, Christopher Wyndham, Prakash C. Deedwania, Delon Wu, Pablo Denes, and Kenneth M. Rosen</i> | | <i>George A. Beller, Ban An Khaw, Edgar Haber, and Thomas W. Smith</i> | |
| Effects of Procainamide and Quinidine Sulfate in the Wolff-Parkinson-White Syndrome .. | 15 | Thallium-201 Myocardial Perfusion Imaging at Rest and during Exercise: Comparative Sensitivity to Electrocardiography in Coronary Artery Disease | 79 |
| <i>T. Duncan Sellers, Jr., Ronald W. F. Campbell, Thomas M. Bashore, and John J. Gallagher</i> | | <i>Ian K. Bailey, Lawrence S. C. Griffith, Jacques Rouleau, H. William Strauss, and Bertram Pitt</i> | |
| Diagnosis of Trifascicular Damage Following Tetralogy of Fallot and Ventricular Septal Defect Repair | 23 | Detection of Left Atrial Myxoma by Gated Radionuclide Cardiac Imaging | 88 |
| <i>Steven M. Yabek, Jay M. Jarmakani, and Nigel K. Roberts</i> | | <i>Gerald M. Pohost, John O. Pastore, Kenneth A. McKusick, Phillip N. Chiotellis, Gordon S. Myers, Robert E. Dinsmore, and Peter C. Block</i> | |
| Temporary Inhibition of Permanently Implanted Demand Pacemakers | 27 | Hypertrophic Cardiomyopathy: Evaluation by Gated Cardiac Blood Pool Scanning | 92 |
| <i>Pervaize Latif and Gordon A. Ewy</i> | | <i>Gerald M. Pohost, Paul A. Vignola, Kenneth E. McKusick, Peter C. Block, Gordon S. Myers, Harriet J. Walker, David L. Copen, and Robert E. Dinsmore</i> | |
| Quantification of the Normal Frank and McFee-Parungao Orthogonal Electrocardiogram at Ages Two to Ten Years | 31 | Detection of Edema Associated with Myocardial Ischemia by Computerized Tomography in Isolated, Arrested, Canine Hearts | 99 |
| <i>Jean S. Kan, Jerome Liebman, Moo Hee Lee, and Allan Whitney</i> | | <i>Wm. John Powell, Jr., Jack Wittenberg, Richard A. Maturi, Robert E. Dinsmore, and Stephen W. Miller</i> | |
| Sampling Rates Required for Digital Recording of Intracellular and Extracellular Cardiac Potentials | 40 | Systolic Thickening and Thinning of the Septum and Posterior Wall in Patients with Coronary Artery Disease, Congestive Cardiomyopathy, and Atrial Septal Defect | 109 |
| <i>Roger C. Barr and Madison S. Spach</i> | | <i>Betty C. Corya, Susan Rasmussen, Harvey Feigenbaum, Suzanne B. Knoebel, and Mary Jo Black</i> | |
| Body Surface Potential Distribution Following the Production of Right Bundle Branch Block in Dogs: Effects of Breakthrough and Right Ventricular Excitation on the Body Surface Potentials | 49 | Cross-sectional Echocardiographic Examination of the Interatrial Septum | 115 |
| <i>Junichi Sugeno, Satoru Sugiyama, Masatoshi Wada, Nobuo Niimi, Hajime Oguri, Junji Toyama, and Kazuo Yamada</i> | | <i>James C. Dillon, Arthur E. Weyman, Harvey Feigenbaum, Reginald C. Eggleston, and Kenneth Johnston</i> | |
| Quantitative Analysis of Exercise Electrocardiograms and Left Ventricular Angiocardiograms in Patients with Abnormal QRS Complexes at Rest | 55 | Two-dimensional Echocardiographic Assessment of Mitral Stenosis | 120 |
| <i>Maarten L. Simoons, Marcel van den Brand, and Paul G. Hugenholtz</i> | | <i>Peter M. Nichol, Brian W. Gilbert, and Joseph A. Kisslo</i> | |
| The Specificity of the Diffuse Pattern of Cardiac Uptake in Myocardial Infarction Imaging with Technetium-99m Stannous Pyrophosphate | 61 | | |
| <i>Richard Prasquier, Michael R. Taradash, Elias H. Botvinick, David M. Shames, and William W. Parmley</i> | | | |

Premature Pulmonary Valve Opening	128	Left Ventricular Performance in the Critically Ill Premature Infant with Patent Ductus Arteriosus and Pulmonary Disease	182
<i>L. S. Wann, Arthur E. Weyman, James C. Dillon, and Harvey Feigenbaum</i>		<i>Barry Baylen, Richard A. Meyer, Joan Korfhagen, George Benzing III, Maurice E. Bubb, and Samuel Kaplan</i>	
A Comparison of Real-time, Two-dimensional Echocardiography and Cineangiography in Detecting Left Ventricular Asynergy	134	Coarctation of the Aorta with Ventricular Septal Defect	189
<i>Joseph A. Kisslo, Dwight Robertson, Brian W. Gilbert, Olaf von Ramm, and Victor S. Behar</i>		<i>William H. Neches, Sang C. Park, Cora C. Lenox, James R. Zuberbuhler, Ralph D. Siewers, and Robert L. Hardesty</i>	
A Quantitative Echocardiographic Study of Champion Childhood Swimmers	142	Increases in Plasma Oncotic Pressure During Acute Cardiogenic Pulmonary Edema	195
<i>Hugh D. Allen, Stanley J. Goldberg, David J. Sahn, Nancy Schy, and Ruth Wojcik</i>		<i>Jaime Figueras and Max Harry Weil</i>	
Mid-diastolic Aortic Valve Opening in Severe Acute Aortic Regurgitation	145	The Effects of Tolbutamide on the Myocardium in Experimental Diabetes	200
<i>Walt F. Weaver, Charles S. Wilson, Terry Rourke, and Christopher C. Caudill</i>		<i>Chia F. Wu, Bunyad Haider, S. Sultan Ahmed, Henry A. Oldewurtel, Michael M. Lyons, and Timothy J. Regan</i>	
Recognition of Residual Postoperative Shunts by Contrast Echocardiographic Techniques ...	148		
<i>Lillian M. Valdes-Cruz, Daniel R. Pieroni, Jean-Michel A. Roland, and Jon P. Shematek</i>			
The Response of Healthy Men to Treadmill Exercise	153		
<i>Roger A. Wolthuis, Victor F. Froelicher, Jr., Joseph Fischer, and John H. Triebwasser</i>			
The Relationship of Patient Selection to Prognosis Following Aortocoronary Bypass	158		
<i>Martin J. Conley, Andrew S. Wechsler, Robert W. Anderson, H. Newland Oldham, David C. Sabiston, and Robert A. Rosati</i>			
Accelerated "Atherosclerosis": A Morphologic Study of 97 Saphenous Vein Coronary Artery Bypass Grafts	163		
<i>Bernadine H. Bulkley and Grover M. Hutchins</i>			
Aortic Valve Replacement Combined with Myocardial Revascularization: Late Clinical Results and Survival of Surgically-Treated Aortic Valve Patients with and without Coronary Artery Disease	169		
<i>Floyd D. Loop, Daniel F. Phillips, Mohan Roy, Paul C. Taylor, Laurence K. Groves, and Donald B. Effler</i>			
Detection of Perioperative Myocardial Damage after Coronary Artery Bypass Graft Surgery	173		
<i>Alberto Righetti, Michael H. Crawford, Robert A. O'Rourke, Thorudr Hardarson, Heinz Schelbert, Pat O. Daily, Marlene DeLuca, William Ashburn, and John Ross, Jr.</i>			
Effects of Operation on Left Atrial Size and the Occurrence of Atrial Fibrillation in Patients with Hypertrophic Subaortic Stenosis	178		
<i>Donald C. Watson, Walter L. Henry, Stephen E. Epstein, and Andrew G. Morrow</i>			

Case Reports:

Total Anomalous Pulmonary Venous Connection and Severe Pulmonic Stenosis in a 52-year-old Man	206
<i>John O. Pastore, Cary W. Akins, Leonard M. Zir, Mortimer J. Buckley, and Robert E. Dinsmore</i>	
Sudden Death during Ambulatory Monitoring: Clinical and Electrocardiographic Correlations: Report of a Case	210
<i>Alan H. Gradman, Patricia A. Bell, and Robert F. DeBusk</i>	
Development of Pulmonary Arteriovenous Shunt after Superior Vena Cava-Right Pulmonary Artery (Glenn) Anastomosis: Report of Four Cases	212
<i>Richard C. McFaul, Abdul J. Tajik, Douglas D. Mair, Gordon K. Danielson, and James B. Seward</i>	

Clinicopathologic Correlations:

Hypereosinophilic Syndrome with Biventricular Involvement	217
<i>Samuel W. Hall, Jr., Athanasios Theologides, Arthur H. L. From, Fredarick L. Gobel, Ignacio E. Fortuny, Cheryl J. Lawrence, and Jesse E. Edwards</i>	

News From The American Heart Association	Page 1

SUBJECT INDEX

A

A case of sudden and unexpected death

Sudden death during ambulatory monitoring: clinical and electrocardiographic correlations: report of a case, 210

A-V junctional tachycardia

Atrial tachycardia without P waves masquerading as an A-V junctional tachycardia, 253

Accelerated atherosclerosis

Accelerated "atherosclerosis": a morphologic study of 97 saphenous vein coronary artery bypass grafts, 163

Accessory atrioventricular pathways

Cryosurgical ablation of accessory atrioventricular connections: a method for correction of the pre-excitation syndrome, 471

Acebutolol suppression

Suppression of premature ventricular contractions by acebutolol, 785

Activity frequency decrease

Decreased frequency of exercise-induced ventricular ectopic activity in the second of two consecutive treadmill tests, 892

Acute coronary stenosis

Contrasting influences of alterations in ventricular preload and afterload upon systemic hemodynamics, function, and metabolism of ischemic myocardium, 318

Acute hypocardial infarction

Augmentation of serum CPK activity by digitalis in patients with acute myocardial infarction, 719

Infarct size estimated from serial serum creatine phosphokinase in relation to left ventricular hemodynamics, 303

Acute myocardial infarction

Correlation of mean pulmonary artery wedge pressure, left atrial dimension, and PTF-V₁ in patients with acute myocardial infarction, 750

Acute pulmonary edema

Increases in plasma oncotic pressure during acute cardiogenic pulmonary edema, 195

Adipose hypocellularity and cyanosis

Adipose hypocellularity in cyanotic congenital heart disease, 916

Amputation

Report of the Inter-Society Commission for Heart Disease Resources: Optimum resources for amputation programs, Ad Page 73 (March)

Angina pectoris prophylaxis

Long-lasting effect on exercise performance: a new antianginal agent, 401

Angina, isosorbide dinitrate effect on

Sustained hemodynamic and antiangina effect of high dose oral isosorbide dinitrate, 381

Angiographic and surgical confirmation

Echocardiographic, angiographic, and surgical correlations in right ventricular myxoma simulating valvular pulmonic stenosis, 619

Anterior and posterior infarct determinations

Correlation of postmortem anatomic findings with electrocardiographic changes in patients with myocardial infarction: retrospective study of patients with typical anterior and posterior infarcts, 279

Antimyosin antibody localization

Localization of radiolabeled cardiac myosin-specific antibody in myocardial infarcts: comparison with technetium-99m stannous pyrophosphate, 74

Aortic stenosis in children

Cross-sectional echocardiographic assessment of the severity of aortic stenosis in children, 773

Aortic valve disease

Six year review of the results of freehand aortic valve replacement using an antibiotic sterilized homograft valve, 353

Aortic valve opening in acute aortic regurgitation

Mid-diastolic aortic valve opening in severe acute aortic regurgitation, 145

Apical venting and wall motion

Ventricular apical vents and postoperative focal contraction abnormalities in patients undergoing coronary artery bypass surgery, 434

Arrhythmias

Fluoroscopy-generated electromagnetic interference in an external demand pacemaker: report of a case, 548

Multiple arrhythmias detected during nocturnal monitoring in patients with congenital complete heart block, 247

Pharmacokinetic studies of quinidine in patients with arrhythmias, 1

Arteriograms

Variability in the analysis of coronary arteriograms, 324

Arteriography

Quantitative coronary arteriography: estimation of dimensions, hemodynamic resistance, and atheroma mass of coronary artery lesions using the arteriogram and digital computation, 329

Ashoff bodies

Ashoff bodies in operatively excised atrial appendages and in papillary muscles: frequency and clinical significance, 559

Asymmetric septal hypertrophy

Comparison of echocardiographic and necropsy measurements of ventricular wall thicknesses in patients with and without disproportionate septal thickening, 341

Echocardiographic observations on the association between mitral valve prolapse and asymmetric septal hypertrophy, 622

Asynergy detection

A comparison of real-time, two-dimensional echocardiography and cineangiography in detecting left ventricular asynergy, 134

At-rest and atrial pacing measurements

Myocardial metabolism in cyanotic congenital heart disease studied by arteriovenous differences of lactate, phosphate and potassium, at rest and during atrial pacing, 647

Atrial and ventricular rate changes

Multiple arrhythmias detected during nocturnal monitoring in patients with congenital complete heart block, 247

Atrial myxoma detection

Detection of left atrial myxoma by gated radionuclide cardiac imaging, 88

Atrial pacing duration

Effect of angina on the left ventricular diastolic pressure-volume relationship, 761

Atrial septal defect

Systolic thickening and thinning of the septum and posterior wall in patients with coronary artery disease, congestive cardiomyopathy, and atrial septal defect, 109

Atrial tachycardia without P-waves

Atrial tachycardia without P waves masquerading as an A-V junctional tachycardia, 253

Atrial vulnerability

Effects of cycle length on atrial vulnerability, 260

Atrioventricular conduction system in transported great arteries

Electrophysiologic delineation of the specialized atrioventricular conduction system in two patients with corrected transposition of the great arteries in situs inversus [I,D,D] 896

B

Baroreflex sensitivity

Baroreflex sensitivity in patients with Takayasu's aortitis, 803

Bethanidine vs. guanethidine trial

Multiclinic controlled trial of bethanidine and guanethidine in severe hypertension, 519

Biplane angiocardiology

Left ventricular mechanical efficiency in man with heart disease, 564

Biventricular involvement

Hypereosinophilic syndrome with biventricular involvement, 217

Blood pool scans

Hypertrophic cardiomyopathy: evaluation by gated cardiac blood pool scanning, 92

Thallium 201 imaging and gated cardiac blood pool scans in patients with ischemic and idiopathic congestive cardiomyopathy: a clinical and pathologic study, 753

Blood pressure and body functions

The response of healthy men to treadmill exercise, 153

Bradycardia-dependent

Tachycardia and bradycardia-dependent bundle branch block alternans: clinical observations, 242

Bretylium tosylate

Experience with bretylium tosylate by a hospital cardiac arrest team, 541

Bundle branch block alternans

Tachycardia and bradycardia-dependent bundle branch block alternans: clinical observations, 242

C**Calcium metabolism pathogenetic role**

Effect of the calcium antagonist verapamil on necrosis following temporary coronary artery occlusion in dogs, 581

Canine coronary occlusion

The relationship between enzymatic and histologic estimates of the extent of myocardial infarction in conscious dogs with permanent coronary occlusion, 438

Cardiac catheterization

Coarctation of the aorta with ventricular septal defect, 189

Intracardiac conduction intervals in children with congenital heart disease. Comparison of His bundle studies in 41 normal children and 307 patients with congenital cardiac defects, 286

Total anomalous pulmonary venous connection and severe pulmonic stenosis in a 52-year-old man, 206

Cardiac function pre-and post-op

Cardiac function in total anomalous pulmonary venous return before and after surgery, 361

Cardiac origins of QRS-T wave potentials

Origin of body surface QRS and T wave potentials from epicardial potential distributions in the intact chimpanzee, 268

Cardiac output method

Evaluation of the CO₂ rebreathing cardiac output method in seriously ill patients, 449

Cardiac potentials

Sampling rates required for digital recording of intracellular and extracellular cardiac potentials, 40

Cardiac tamponade

Cardiac tamponade and constriction. Letter, 951

Cardiac valvular insufficiencies

The radiological diagnosis of cardiac valvular insufficiencies, 921

Cardiac waveforms

Sampling rates required for digital recording of intracellular and extracellular cardiac potentials, 40

Cardiomyopathy evaluation

Hypertrophic cardiomyopathy: evaluation by gated cardiac blood pool scanning, 92

Celloid osmotic pressure measurement

Increases in plasma oncotic pressure during acute cardiogenic pulmonary edema, 195

Childhood swimmer quantitation

A quantitative echocardiographic study of champion childhood swimmers, 142

Chromatographic studies of blood and urine

Pharmacokinetic studies of quinidine in patients with arrhythmias, 1

Clinical and angiographic findings

Coronary spasm, variant angina, and recurrent myocardial infarctions, 947

Clinical and cardiographic correlations

Sudden death during ambulatory monitoring: clinical and electrocardiographic correlations: report of a case, 210

Clinical significance

Clinical significance of prolonged sinoatrial conduction time, 8

CO₂ rebreathing

Evaluation of the CO₂ rebreathing cardiac output method in seriously ill patients, 449

Coarctation of the aorta with ventricular septal defect

Coarctation of the aorta with ventricular septal defect, 189

Coital heart rate

The effect of exercise training on heart rate during coitus in the post myocardial infarction patient, 738

Combined alpha and beta blockade

Hemodynamic effects of labelol, an alpha and beta adrenergic blocking agent, in hypertensive subjects, 370

Common ventricle

Contrast echocardiography in single or common ventricle, 513

Complete heart block

Complete heart block in a case of idiopathic hypertrophic subaortic stenosis: noninvasive correlates with the timing of atrial systole, 418

Computerized analysis

Quantitative coronary arteriography: estimation of dimensions, hemodynamic resistance, and atheroma mass of coronary artery lesions using the arteriogram and digital computation, 329

Computerized tomography

Detection of edema associated with myocardial ischemia by computerized tomography in isolated, arrested, canine hearts, 99

Conduction intervals

Intracardiac conduction intervals in children with congenital heart disease. Comparison of His bundle studies in 41 normal children and 307 patients with congenital cardiac defects, 286

Congenital complete heart block

Multiple arrhythmias detected during nocturnal monitoring in patients with congenital complete heart block, 247

Congenital heart disease

Intracardiac conduction intervals in children with congenital heart disease. Comparison of His bundle studies in 41 normal children and 307 patients with congenital cardiac defects, 286

Palliation of cyanotic congenital heart disease in infancy with E-type prostaglandins, 238

Recurrence risk in CHD. Letter, 555

Recurrence risk in CHD. Response, 555

Congestive cardiomyopathy

Systolic thickening and thinning of the septum and posterior wall in patients with coronary artery disease, congestive cardiomyopathy, and atrial septal defect, 109

Congestive heart failure measurements

The effect of the Valsalva maneuver on echocardiographic dimensions in man, 596

Congestive heart failure treatment

Combined dopamine and nitroprusside therapy in congestive heart failure: greater augmentation of cardiac performance by addition of inotropic stimulation to afterload reduction, 881

Contrast echocardiography

Contrast echocardiography in single or common ventricle, 513

Recognition of residual postoperative shunts by contrast echocardiographic techniques, 148

Coronary arteriography

Coronary arteriography, 227

Report of the Ad Hoc Committee on the Indications for Coronary Arteriography, 969A (June)

Coronary artery bypass

Ventricular apical vents and postoperative focal contraction abnormalities in patients undergoing coronary artery bypass surgery, 434

Coronary artery disease

Systolic thickening and thinning of the septum and posterior wall in patients with coronary artery disease, congestive cardiomyopathy, and atrial septal defect, 109

Characteristics of sinoatrial conduction in patients with coronary artery disease, 569

Coronary blood flow

Left ventricular mechanical efficiency in man with heart disease, 564

Coronary bypass

Detection of perioperative myocardial damage after coronary artery bypass graft surgery, 173

Coronary bypass grafts

Status of the grafts and the native coronary arteries proximal and distal to coronary anastomotic sites of aortocoronary bypass grafts, 741

Coronary heart disease

HDL cholesterol and other lipids in coronary heart disease: the cooperative lipoprotein phenotyping study, 767

Coronary origin

Coronary arterial origin in persistent truncus arteriosus, 551

Creatine phosphokinase

Mathematical modifications fail to improve CPK estimates of extent of infarct. Letter, 678

Creatine phosphokinase-MB measurements

Serum creatine phosphokinase MB isoenzyme activity after myocardial infarction: studies in the baboon and man, 733

Creatine phosphokinase activity

Augmentation of serum CPK activity by digitalis in patients with acute myocardial infarction, 719

Cross-sectional echocardiography

Cross-sectional echocardiographic examination of the interatrial septum, 115

Cross-sectional electrocardiography studies

Cross-sectional echocardiographic assessment of the severity of aortic stenosis in children, 773

Cryodynamic hand angiography

Cryodynamic hand angiography in the diagnosis and management of Raynaud's syndrome, 807

Cryosurgical production of A-V block

Cryosurgical ablation of the A-V node-His bundle: a new method for producing A-V block, 463

Cryothermia

Cryosurgical ablation of accessory atrioventricular connections: a method for correction of the pre-excitation syndrome, 471

Cyanotic cardiac heart disease

Myocardial metabolism in cyanotic congenital heart disease studied by arteriovenous differences of lactate, phosphate and potassium, at rest and during atrial pacing, 647

Cyanotic congenital heart disease

Palliation of cyanotic congenital heart disease in infancy with E-type prostaglandins, 238

Cycle length effects

Effects of cycle length on atrial vulnerability, 260

D**Depressant effects of ischemic blood**

The effect of "ischemic" blood on transmembrane potentials of normal porcine ventricular myocardium, 455

Diabetes

The effects of tolbutamide on the myocardium in experimental diabetes, 200

Diagnostic procedures

Sampling rates required for digital recording of intracellular and extracellular cardiac potentials, 40

Diffuse uptake

The specificity of the diffuse pattern of cardiac uptake in myocardial infarction imaging with technetium-99m stannous pyrophosphate, 61

Digital recordings

Sampling rates required for digital recording of intracellular and extracellular cardiac potentials, 40

Digitalis augmentation

Augmentation of serum CPK activity by digitalis in patients with acute myocardial infarction, 719

Digoxin

The effect of jejunoileal bypass on the pharmacokinetics of digoxin in man, 537

Distribution and washout rate measurement

Regional myocardial perfusion in patients with atherosclerotic coronary artery disease, at rest and during angina pectoris induced by tachycardia, 423

Dobutamine

Superiority of dobutamine over dopamine for augmentation of cardiac output in patients with chronic low output cardiac failure, 375

Dobutamine after open heart surgery

Hemodynamic effects of dobutamine in patients following open heart surgery, 525

Dopamine

Superiority of dobutamine over dopamine for augmentation of cardiac output in patients with chronic low output cardiac failure, 375

Dopamine and nitroprusside combination

Combined dopamine and nitroprusside therapy in congestive heart failure: greater augmentation of cardiac performance by addition of inotropic stimulation to afterload reduction, 881

Dual A-V nodal pathways participation in complicating tachycardias

Participation of fast and slow A-V nodal pathways in tachycardias complicating the Wolff-Parkinson-White syndrome: Report of a case, 663

E**ECG tape recording monitoring**

Multiple arrhythmias detected during nocturnal monitoring in patients with congenital complete heart block, 247

Echocardiographic and morphologic findings

Prevalence and characteristics of disproportionate ventricular septal thickening in patients with acquired or congenital heart diseases: echocardiographic and morphologic findings, 489

Echocardiographic and necropsy correlations

Comparison of echocardiographic and necropsy measurements of ventricular wall thicknesses in patients with and without disproportionate septal thickening, 341

Echocardiography

A quantitative echocardiographic study of champion childhood swimmers, 142

ECG classification of WPW affects echo assessment. Letter, 823

ECG classification of WPW affects echo assessment. Response, 823

Echo evaluation of WPW. Letter, 824

Echocardiographic determination of left ventricular mass in man: anatomic validation of the method, 613

Echocardiographic observations on the association between mitral valve prolapse and asymmetric septal hypertrophy, 622

Echocardiographic, angiographic, and surgical correlations in right ventricular myxoma simulating valvar pulmonic stenosis, 619

Interventricular septal motion in patients with proximal and distal left anterior descending coronary artery lesions, 338

The assessment of mitral stenosis and prosthetic mitral valve obstruction, using the posterior aortic wall echocardiogram, 885

- Hypercontractile contractile state**
- Hypercontractile cardiac states simulating hypertrophic cardiomyopathy, 901

Hypereosinophile syndrome

Hypereosinophilic syndrome with biventricular involvement, 217

Hypertension

Physiologic evaluation of a new antihypertensive agent: prazosin HCl, 533

Hypertension in blacks

Target organ damage in black hypertensives, 792

Hypertensive subjects

Hemodynamic effects of labetalol, an alpha and beta adrenergic blocking agent, in hypertensive subjects, 370

Hypertrophic cardiomyopathy simulation

Hypercontractile cardiac states simulating hypertrophic cardiomyopathy, 901

Hypertrophic subaortic stenosis

Complete heart block in a case of idiopathic hypertrophic subaortic stenosis: noninvasive correlates with the timing of atrial systole, 418

Hypoxemia

Platelet survival time in patients with hypoxemia and pulmonary hypertension, 660

I**Infarct size determination**

Inability of methylprednisolone sodium succinate to decrease infarct size or preserve enzyme activity measured 24 hours after coronary occlusion in the dog, 588

Infarction quantification

Quantification of infarction in cross sections of canine myocardium *in vivo* with positron emission transaxial tomography and ¹⁴C-palmitate, 66

Infarction zone conduction characteristics

Re-entrant ventricular arrhythmias in the late myocardial infarction period: 1. Conduction characteristics in the infarction zone, 686

Initiation patterns

Re-entrant ventricular arrhythmias in the late myocardial infarction period: 1. Conduction characteristics in the infarction zone, 686

Re-entrant ventricular arrhythmias in the late myocardial infarction period: 2. Patterns of initiation and termination of reentry, 702

Interatrial septum examination

Cross-sectional echocardiographic examination of the interatrial septum, 115

Interstitial tissue

Quantitation of left ventricular myocardial fiber hypertrophy and interstitial tissue in human hearts with chronically increased volume and pressure overload, 504

Intravenous ¹⁴C-palmitate

Quantification of infarction in cross sections of canine myocardium *in vivo* with positron emission transaxial tomography and ¹⁴C-palmitate, 66

Ischemia, ventricular preload and afterload influences on

Contrasting influences of alterations in ventricular preload and afterload upon systemic hemodynamics, function, and metabolism of ischemic myocardium, 318

Ischemic heart detection

Detection of edema associated with myocardial ischemia by computerized tomography in isolated, arrested, canine hearts, 99

Ischemic heart disease

Coronary arteriography, 227

Ischemic myocardial injury detection

Detection of remote myocardial infarction in patients with positron emission transaxial tomography and intravenous ¹⁴C-palmitate, 853

Ischemic myocardium

Effect of the calcium antagonist verapamil on necrosis following temporary coronary artery occlusion in dogs, 581

Jejunioileal bypass

The effect of jejunioileal bypass on the pharmacokinetics of digoxin in man, 537

L**Labetalol**

Hemodynamic effects of labetalol, an alpha and beta adrenergic blocking agent, in hypertensive subjects, 370

Lactate metabolism

Graded global ischemia and reperfusion: cardiac function and lactate metabolism, 864

Late hospital phase ventricular arrhythmias

Left ventricular and coronary angiographic anatomy: relationship to ventricular irritability in the late hospital phase of acute myocardial infarction, 839

Late pulmonary venous obstruction

Late development of pulmonary venous obstruction following Mustard's operation using a dacron baffle, 484

Left anterior descending coronary artery lesion detection

Interventricular septal motion in patients with proximal and distal left anterior descending coronary artery lesions, 338

Left atrial size and atrial fibrillation in idiopathic hypertrophic stenosis

Effects of operation on left atrial size and the occurrence of atrial fibrillation in patients with hypertrophic subaortic stenosis, 178

Left atrium

Suprasternal notch echocardiography: assessment of its clinical utility in pediatric cardiology, 605

Left ventricular contraction patterns

Quantitative analysis of exercise electrocardiograms and left ventricular angiocardiograms in patients with abnormal QRS complexes at rest, 55

Left ventricular diastolic properties

Effect of angina on the left ventricular diastolic pressure-volume relationship, 761

Left ventricular function curves in heart disease

Quantitative assessment of ventricular performance in unstable heart disease by dextran function curves, 858

Left ventricular hemodynamics and infarct size

Infarct size estimated from serial serum creatine phosphokinase in relation to left ventricular hemodynamics, 303

Left ventricular mass

Distance correction for precordial electrocardiographic voltage in estimating left ventricular mass: an echocardiographic study, 509

Left ventricular mass determination

Echocardiographic determination of left ventricular mass in man: anatomic validation of the method, 613

Left ventricular performance

Left ventricular performance in the critically ill premature infant with patent ductus arteriosus and pulmonary disease, 182

O

- Operability criteria**
- Truncus arteriosus with unilateral absence of a pulmonary artery: criteria for operability and surgical results, 641

Oral molsydomine, long-lasting effect on exercise

Long-lasting effect on exercise performance: a new antianginal agent, 401

Orthostatic blood pressure fall rate

Multiclinic controlled trial of bethanidine and guanethidine in severe hypertension, 519

P**Pacemaker**

Complete heart block in a case of idiopathic hypertrophic subaortic stenosis: noninvasive correlates with the timing of atrial systole, 418

Pacemaker inhibition

Temporary inhibition of permanently implanted demand pacemakers, 27

Pacing and pacemakers

GIK and pacing response. Letter, 952

GIK and pacing response. Response, 952

Patient ductus arteriosus

Left ventricular performance in the critically ill premature infant with patent ductus arteriosus and pulmonary disease, 182

Patient selection and prognosis after bypass

The relationship of patient selection to prognosis following aortocoronary bypass, 158

Pediatrics

Palliation of cyanotic congenital heart disease in infancy with E-type prostaglandins, 238

Periop myocardial damage detection

Detection of perioperative myocardial damage after coronary artery bypass graft surgery, 173

Phonoangiography by autocorrelation

Phonoangiography by autocorrelation, 626

Platelet survival time

Platelet survival time in patients with hypoxemia and pulmonary hypertension, 660

Porcine coronary artery occlusion

The effect of "ischemic" blood on transmembrane potentials of normal porcine ventricular myocardium, 455

Positron tomography

Detection of remote myocardial infarction in patients with positron emission transaxial tomography and intravenous ¹⁴C-palmitate, 853

Post myocardial infarction

The effect of exercise training on heart rate during coitus in the post myocardial infarction patient, 738

Postop cardiac catheterization documentation

Late development of pulmonary venous obstruction following Mustard's operation using a dacron baffle, 484

Postop trifascicular damage

Diagnosis of trifascicular damage following tetralogy of Fallot and ventricular septal defect repair, 23

Postoperative shunt recognition

Recognition of residual postoperative shunts by contrast echocardiographic techniques, 148

Posttraumatic left ventricular aneurysm

Asymptomatic left ventricular aneurysm: a sequela of blunt chest trauma, 545

Prazosin hydrochloride

Physiologic evaluation of a new antihypertensive agent: prazosin HCl, 533

Pre-excitation syndrome treatment

Cryosurgical ablation of accessory atrioventricular connections: a method for correction of the pre-excitation syndrome, 471

Precordial Q wave mapping

Noninvasive assessment of cardiac function and ventricular dyssynergy by precordial Q wave mapping in anterior myocardial infarction, 833

Premature ventricular contractions

Suppression of premature ventricular contractions by acebutolol, 785

Premature pulmonary valve opening

Premature pulmonary valve opening, 128

Prinzmetal's angina

Alternans of the ST segment in Prinzmetal's angina, 574

Procainamide and quinidine effects

Effects of procainamide and quinidine sulfate in the Wolff-Parkinson-White syndrome, 15

Procainamide and sulfamethazine, metabolic relationship

The relationship between the metabolism of procainamide and sulfamethazine, 388

Prolonged sinoatrial time

Clinical significance of prolonged sinoatrial conduction time, 8

Propranolol, effect on

The effect of propranolol on microvascular injury in acute myocardial ischemia, 872

Pseudobradycardia-dependent

Tachycardia and bradycardia-dependent bundle branch block alternans: clinical observations, 242

Pulmonary arteriovenous shunt

Development of pulmonary arteriovenous shunt after superior vena cava-right pulmonary artery (Glenn) anastomosis: report of four cases, 212

Pulmonary hypertension

Platelet survival time in patients with hypoxemia and pulmonary hypertension, 660

Pulmonary hypertension, minoxidil effects on

The effect of minoxidil on pulmonary and systemic hemodynamics in hypertensive man, 394

Q**Quantification of orthogonal electrocardiogram**

Quantification of the normal Frank and McFee-Parungao orthogonal electrocardiogram at ages two to ten years, 31

Quinidine kinetics

Pharmacokinetic studies of quinidine in patients with arrhythmias, 1

R**Radiological diagnosis**

The radiological diagnosis of cardiac valvar insufficiencies, 921

Razin suppression role

Natriuretic response to saline infusion in normotensive and hypertensive man: the role of renin suppression in exaggerated natriuresis, 779

Re-entrant ventricular arrhythmias

Re-entrant ventricular arrhythmias in the late myocardial infarction period: 1. Conduction characteristics in the infarction zone, 686

Re-entrant ventricular arrhythmias in the late myocardial infarction period: 2. Patterns of initiation and termination of reentry, 702

Regional myocardial perfusion in coronary artery disease

Regional myocardial perfusion in patients with atherosclerotic coronary artery disease, at rest and during angina pectoris induced by tachycardia, 423

Relatives of Marfan syndrome patients, cardiac

Cardiac, skeletal and ophthalmologic abnormalities in relatives of patients with the Marfan syndrome, 797

Reperfusion

Graded global ischemia and reperfusion: cardiac function and lactate metabolism, 864

Reproducibility assessment

Reproducibility of thallium-201 myocardial imaging, 497

Resistant ventricular fibrillation

Experience with bretylium tosylate by a hospital cardiac arrest team, 541

Reynaud's syndrome diagnosis and management

Cryodynamic hand angiography in the diagnosis and management of Raynaud's syndrome, 807

Rheumatic fever prevention

A. H. A. committee report: Prevention of rheumatic fever, A-1 (January)

Right pulmonary artery

Suprasternal notch echocardiography: assessment of its clinical utility in pediatric cardiology, 605

Right ventricular myxoma determination

Echocardiographic, angiographic, and surgical correlations in right ventricular myxoma simulating valvular pulmonic stenosis, 619

Right ventricular volume overload, surgical effects on

Pre and postoperative ventricular function in infants and children with right ventricular volume overload, 479

Rupture complicating myocardial infarction

Rupture of ventricular septum or papillary muscle complicating myocardial infarction, 815

Ruptured septum and heart block

De subitaneis mortibus: XXIV. Ruptured interventricular septum and heart block, 934

S**Saphenous vein bypass grafts**

Accelerated "atherosclerosis": a morphologic study of 97 saphenous vein coronary artery bypass grafts, 163

Scalar ECG

Atrial tachycardia without P waves masquerading as an A-V junctional tachycardia, 253

Second heart sound

Intracardiac pressure-sound correlates of echographic aortic valve closure, 602

Scintigraph

Regional myocardial perfusion in patients with atherosclerotic coronary artery disease, at rest and during angina pectoris induced by tachycardia, 423

Septal occlusion

The origin of ventricular arrhythmias 24 hours following experimental anterior septal coronary artery occlusion, 844

Septal thickening in heart disease

Prevalence and characteristics of disproportionate ventricular septal thickening in patients with acquired or congenital heart diseases: echocardiographic and morphologic findings, 489

Septal-free wall ratios

Comparison of echocardiographic and necropsy measurements of ventricular wall thicknesses in patients with and without disproportionate septal thickening, 341

Serial imaging with Thallium-201

Differentiation of transiently ischemic from infarcted myocardium by serial imaging after a single dose of thallium-201, 294

Serial serum creatine phosphokinase

Infarct size estimated from serial serum creatine phosphokinase in relation to left ventricular hemodynamics, 303

Severe hypertension

Multiclinic controlled trial of bethanidine and guanethidine in severe hypertension, 519

Severe pulmonic stenosis

Total anomalous pulmonary venous connection and severe pulmonic stenosis in a 52-year-old man, 206

Single pulmonary artery

Truncus arteriosus with unilateral absence of a pulmonary artery: criteria for operability and surgical results, 641

Sinoatrial conduction

Characteristics of sinoatrial conduction in patients with coronary artery disease, 569

Skeletal and ophthalmologic abnormalities of

Cardiac, skeletal and ophthalmologic abnormalities in relatives of patients with the Marfan syndrome, 797

ST alternans

Alternans of the ST segment in Prinzmetal's angina, 574

ST segment elevation

Exercise-induced ST elevation in patients with an old myocardial infarction. Letter, 951

Exercise-induced ST elevation in patients with an old myocardial infarction. Response, 951

ST segment mapping

ST-segment mapping: a cardiologist's tease. Letter, 952

Strain

A. H. A. special report: Report of the Committee on Stress, Strain and Heart Disease, 825A (May)

Stress

A. H. A. special report: Report of the Committee on Stress, Strain and Heart Disease, 825A (May)

Sudden death in rheumatoid arthritis

De subitaneis mortibus. XXIII. Rheumatoid arthritis and ankylosing spondylitis, 669

Sudden infant death syndrome, QT interval role

The role of the QT interval in the sudden death infant death syndrome, 633

Suprasternal echocardiography

Suprasternal notch echocardiography: assessment of its clinical utility in pediatric cardiology, 605

Supraventricular tachycardias

Cryosurgical ablation of the A-V node-His bundle: a new method for producing A-V block, 463

Supraventricular tachycardia

SVT in children. Letter, 952

Surface maps in experimental right bundle branch block

Body surface potential distribution following the production of right bundle branch block in dogs: effects of breakthrough and right ventricular excitation on the body surface potentials, 49

Surgical repair

Early and late results of surgical repair of truncus arteriosus, 636

Survival after AV replacement and coronary bypass surgery

Aortic valve replacement combined with myocardial revascularization: late clinical results and survival of surgically-treated aortic valve patients with and without coronary artery disease, 169

Systolic LV wall thickening

Systolic thickening and thinning of the septum and posterior wall in patients with coronary artery disease, congestive cardiomyopathy, and atrial septal defect, 109

T**Tachycardia in type A Wolff-Parkinson-White syndrome**

De subitaneis mortibus. XXII. Intractable paroxysmal tachycardias which proved fatal in type A Wolff-Parkinson-White syndrome, 408

Tachycardia-dependent

Tachycardia and bradycardia-dependent bundle branch block alternans: clinical observations, 242

Takayasu's aortitis

Baroreflex sensitivity in patients with Takayasu's aortitis, 803

Technetium-99m

Localization of radiolabeled cardiac myosin-specific antibody in myocardial infarcts: comparison with technetium-99m stannous pyrophosphate, 74

The specificity of the diffuse pattern of cardiac uptake in myocardial infarction imaging with technetium-99m stannous pyrophosphate, 61

Tetralogy of Fallot repair

Diagnosis of trifascicular damage following tetralogy of Fallot and ventricular septal defect repair, 23

Thallium 201 imaging

Thallium 201 imaging and gated cardiac blood pool scans in patients with ischemic and idiopathic congestive cardiomyopathy: a clinical and pathologic study, 753

Thallium-201 myocardial imaging

Reproducibility of thallium-201 myocardial imaging, 497

Tolbutamide and heart

The effects of tolbutamide on the myocardium in experimental diabetes, 200

Tomography of the heart

Quantification of infarction in cross sections of canine myocardium *in vivo* with positron emission transaxial tomography and ¹⁴C-palmitate, 66

Total anomalous pulmonary venous connection in middle-aged men

Total anomalous pulmonary venous connection and severe pulmonic stenosis in a 52-year-old man, 206

Total anomalous pulmonary venous return

Cardiac function in total anomalous pulmonary venous return before and after surgery, 361

Pre and postoperative ventricular function in infants and children with right ventricular volume overload, 479

Toxic cardiomyopathy

MI with normal coronaries in toxic cardiomyopathy. Letter, 679

Transiently ischemic from infarcted myocardium differentiation

Differentiation of transiently ischemic from infarcted myocardium by serial imaging after a single dose of thallium-201, 294

Transmembrane potentials

The effect of "ischemic" blood on transmembrane potentials of normal porcine ventricular myocardium, 455

Treadmill tests

Decreased frequency of exercise-induced ventricular ectopic activity in the second of two consecutive treadmill tests, 892

Truncus arteriosus

Early and late results of surgical repair of truncus arteriosus, 636

Truncus arteriosus with unilateral absence of a pulmonary artery: criteria for operability and surgical results, 641

Coronary arterial origin in persistent truncus arteriosus, 551

Two-dimensional echocardiography

A comparison of real-time, two-dimensional echocardiography and cineangiography in detecting left ventricular asynergy, 134

Two-dimensional echocardiographic assessment of mitral stenosis, 120

Two-dimensional electrocardiography

Two-dimensional echocardiographic assessment of vegetative endocarditis, 346

Type IV hyperlipoproteinemia

Comparative effects of physical training and diet in normalizing serum lipids in men with type IV hyperlipoproteinemia, 652

U**Ultrasound**

Intracardiac pressure-sound correlates of echographic aortic valve closure, 602

V**Vagal stimulation**

The effects of heart rate, myocardial ischemia and vagal stimulation on the threshold for ventricular fibrillation, 311

Valsalva maneuver

The effect of the Valsalva maneuver on echocardiographic dimensions in man, 596

Variability in analysis

Variability in the analysis of coronary arteriograms, 324

Variant angina spasm infarcts

Coronary spasm, variant angina, and recurrent myocardial infarctions, 947

Vectorcardiographic ST magnitude

Evaluation of precordial orthogonal vectorcardiographic lead ST-segment magnitude in the assessment of myocardial ischemic injury, 728

Vectorcardiography

Toward standardized VCG systems. Letter, 556

Vegetative endocarditis

Two-dimensional echocardiographic assessment of vegetative endocarditis, 346

Venous thromboembolism prevention

A. H. A. special report: Prevention of venous thromboembolism in surgical patients by low-dose heparin, 423A (February)

Ventricular arrhythmias origin localization

The origin of ventricular arrhythmias 24 hours following experimental anterior septal coronary artery occlusion, 844

Ventricular efficiency

Left ventricular mechanical efficiency in man with heart disease, 564

Ventricular fibrillation

The effects of heart rate, myocardial ischemia and vagal stimulation on the threshold for ventricular fibrillation, 311

Ventricular septal defect

Natural history of ventricular septal defect: A study involving 790 cases, 908

Diagnosis of trifascicular damage following tetralogy of Fallot and ventricular septal defect repair, 23

Ventriculograms

Ventricular apical vents and postoperative focal contraction abnormalities in patients undergoing coronary artery bypass surgery, 434

Ventriculography

Coronary arteriography, 227

Verapamil

Effect of the calcium antagonist verapamil on necrosis following temporary coronary artery occlusion in dogs, 581

W**Wenckebach block**

Atrial tachycardia without P waves masquerading as an A-V junctional tachycardia, 253

Wolff-Parkinson-White syndrome

ECG classification of WPW affects echo assessment. Letter, 823

ECG classification of WPW affects echo assessment. Response, 823

Echo evaluation of WPW. Letter, 824

Effects of procainamide and quinidine sulfate in the Wolff-Parkinson-White syndrome, 15

Participation of fast and slow A-V nodal pathways in tachycardias complicating the Wolff-Parkinson-White syndrome: Report of a case, 663
